

Inside the Dark Void (2009)

1.- Unleash the Storm

Music: David Casanova

2.- Darkland

Music: David Casanova

Lyrics: David Casanova & Jorge Navas Alejo

Holy land they call it
Blood and tears dried it long ago
Death's been always constant here

Join today their lies
read and watch all what they want
there's no need for you to think

Firing a tank's turret
Dressing up with TNT
Different sides but same crimes

If today somebody
Blows a market in Tel Aviv
Tomorrow Gaza will burn

Die in this, Die in this Darkland

Is there any hope for them?
Can there shine a light in the darkest of the
nights?
Maybe it's time think
Who is winning while this war still exists?

Die in this, Die in this Darkland

Any chance of peace here
Is soon silenced by the bombs
Leaving pain, corpses and hate

If there's really a God
He can't be any proud of you
Whatever name you call him

Die in this, Die in this Darkland

Is there any hope for them?

Can there shine a light in the darkest of the nights?

Maybe it's time think

Who is winning while this war still exists?

3.- Guide for the Fallen

Music: David Casanova

Lyrics: Jorge Navas Alejo

Now you are here and there's no much to do
Religion, your country, petrol or just fun
The cause will not change the fact:
You're wasting your own life

*You'll be back home
inside a coffin
Is that your way
to make them proud of you
You're just a stupid fool*

They want you to obey all what they ask
Kill who they've told you that's so evil that
God's going to bless you all
But there's no Heaven for any of you
I'll be here, guiding you all to the (void)

(Void) that's reserved for all of your kind
Brainless and Mindless is what soldiers are
They asked you to die for your flag
Not to kill in its name

*You will explode in
a thousand pieces
Is this your way
to make them proud of you
You're just a stupid fool*

They want you to obey all what they ask
Kill who they've told you that's so evil that
God's going to bless you all
But there's no Heaven waiting for you
There's just me, I'm the Guide for the Fallen

*What the fuck do you think
When you're killing someone else
Don't you know that blood asks for more
blood?*

*If you are so brave
Just point to he who commands
And send him to the hell that he deserves*

No, don't follow orders
They're just a nonsense
You are just the pawns in a deadly game of
chess

Who cares who is worse?
We talk about human lifes!
It is time to stop the madness this fucking
war

4.- Aton Supremacy

Music: David Casanova

5.- The Heretic Pharaoh

Music: Luis Bellés

Lyrics: Jorge Navas Alejo

I've already had enough
Of the priests' tyranny
I think I have the clue
To make their power vanish
Since today there's going to exist
Just only one God
They will be no longer needed
Their temples will be empty soon

*Now, there's no turning back
Now, forget all those gods
It's time to pray to Aton
The God of infinite goodness
Those priests they have been
Ruling and fooling us all
Making you work and pay
While they get richer day by day*

Aton protects us all
He brings light and life
He cares for us all
Just trust what I say
I'm his prophet
He's our shining star
He's our guiding light
From now on let's forget all false Gods

Akhenaton – There's just one god
Akhenaton – Pray for Aton

We must be quick and smart
To ruin his evil plan
Let's think what do we need
To manipulate the people

Just in a few days
There will be an eclipse
We can use that in our
Favor to make the Heretic fall

6.- Black Bird

Music: Luis Bellés
Lyrics: Jorge Navas Alejo

We had our chance some time ago
And it cost us thousands of lives
Instead of fighting as a whole
We did prefer to let it go

They say we live in freedom now

We should be fully satisfied
But the only thing they really care
Is how much money they can make

*Now tell me, do you really agree
With everything they're asking for?
Not me, not you, not them, not us
But the whole world is what they want*

*Instead of using whips and chains
They've got now banks to enslave us all
Pay now or you will feel yourself
How fast they can ruin your life*

No one has the right to tell us how
We shall live our lives
I'm fed up with bastards who dare to
Criticize our acts

They instruct us in the art of
Being selfish and vulgar
In a world of Hawks, Vultures and Crows,
I'd rather be a Black Bird

They do not own our lives, Black Bird
Fly free and break your cage, Black Bird

Now listen carefully my words
Another world is possible
A place where greed is not allowed
No need to fear, no need to hate

We've got the tools we need for it
It's time to join voices and hands
And make the Earth the place we want
Cleaning the sewer that's today

7.- Scarlet Curse

Music: David Casanova
Lyrics: David Casanova & Jorge Navas Alejo

Just take one dose

and the fun's going to start right away
This first one's on the house
but you'll have to pay the next one

*Silence, Silence, Silence, from inside this dark
void I hear...*
*Silence, Silence, Silence, from inside this dark
void...*

Now you're mine,
I'm the needle your new guide to life
Forget your family and friends
they are not longer needed

*Silence, Silence, Silence, from inside this dark
void I hear...*
*Silence, Silence, Silence, from inside this dark
void...*

Just trust the needle my slave

What's going on?
What the fuck is happening to me?
I just wanted to have fun
and now I'm addicted
No happiness, no more smiles
without my medicine
I'm just a junkie
with a King Kong sized monkey

*Silence, Silence, Silence, from inside this dark
void I hear...*
*Silence, Silence, Silence, from inside this dark
void...*

Don't even try to escape

Don't blame me it's been your own fault,
now don't come here crying
I made your dreams become real
but so with your nightmares

*Silence, Silence, Silence, from inside this dark
void I hear...*
*Silence, Silence, Silence, from inside this dark
void...*

Just trust the needle my slave

What's going on?
What the fuck is happening to me?
I just wanted to have fun
and now I'm addicted
No happiness, no more smiles
without my medicine
I'm just a junkie
with a King Kong sized monkey

*Silence, Silence, Silence, from inside this dark
void I hear...*
*Silence, Silence, Silence, from inside this dark
void...*

**Pay attention to me, always say no to
them, drugs are a dead-end alley**

8.- Whirlwind Storm

Original Music: Morihiko Akiyama, Hirofumi
Murasaki & Masayuki Nagao. Included in
"Shinobi III - The Return of the Ninja Master"

Arranged Music: David Casanova

Lyrics: Jorge Navas Alejo

I've had this dream my whole life
Being here and have the
Chance to tell you all my thoughts
As loud as I can

Now I'm living my dream
Nothing's going to make me stop
Doesn't matter how far you live - we'll reach
there
The Whirlwind Storm will strike

**The Whirlwind Storm! The Whirlwind
Storm!**

I'm the same guy you once met

And nothing will change
I'll keep fighting for what's fair
Singing you these songs

*Now I'm living my dream
Nothing's going to make me stop
Doesn't matter how far you live – we'll reach
there
The Whirlwind Storm will strike*

*Now I'm living my dream
Nothing's going to make me stop
Doesn't matter how far you live – we'll reach
there
The Whirlwind Storm will strike*

The Whirlwind Storm! The Whirlwind Storm!

9.- Blood of the Primogen

Music: David Casanova

10.- Awakening

Music: David Casanova

Lyrics: David Casanova & Jorge Navas Alejo

Moonlight is shining
The vampire will now come alive
Hiding's not an option now
He'll hunt us down one by one
He will sink his fangs in each one of our
throats

Soon he'll recover
From his centuries-old torpor
His anger will be our doom
Bloodless corpses we'll become

Nobody will escape from his dread gaze

*Rise! Be the demon's bane / Our master needs
all our blood
Let's gather all our men / To rise again from
his grave
And make it head or tails
I prefer to fight / It's been a thousand years
I'll even give my life / It's time for him to
reign again
To stop the Awakening
I've been longing for this moment
My whole life now it's my turn
To make my ancestors proud of me
And kill the unholy beast*

By the oath that I took
I will my soul

*Rise! Be the demon's bane / Our master needs
all our blood
Let's gather all our men / To rise again from
his grave
And make it head or tails
I prefer to fight / It's been a thousand years
I'll even give my life / It's time for him to
reign again
To stop the Awakening*

Awakening, Awakening!

I've waiting all these years
Lying asleep
I'm hearing clear the call
Tonight my kingdom of death will arise

Blood runs again through my veins
Crimson Red Vitae
Power of a Methusalem
Now mortals kneel before me or you shall
perish

11.- The March of Anubis / Part 1

Music: Luis Bellés

12.- The March of Anubis / Part 2

Music: Luis Bellés

Lyrics: Jorge Navas Alejo

Since he became the pharaoh
He has tried to make us think
That Aton's the only God
And the others are mere slaves

Now that our master is here
We will march against him
His city will vanish
And the heretic will be slain

*Follow the march of Anubis
He's our ruler he's our real god
Of Heresy you are guilty
You will pay your sins
with your own life*

**March, march, march and
join the gods' forces
We are the march of Anubis
March and face the heretic**

We don't fear any your curses
Aton is protecting us
Egypt won't belong to you
But to the children of the Nile

You the priest are just snakes
poisoning all people's minds
Whatever happens today
My example will prevail

*Follow the march of Anubis
He's our ruler he's our real god
Of Heresy you are guilty
You will pay your sins
with your own life*

**March, march, march and
join the gods' forces
We are the march of Anubis
March and face the heretic**

Anubis, Anubis, Anubis...

13.- Whirlwind Storm (Arcade Edit)

Original Music: Morihiko Akiyama, Hirofumi
Murasaki & Masayuki Nagao. Included in
"Shinobi III - The Return of the Ninja Master"
Arranged Music: David Casanova

14.- The Call to Wrath (Demo 2006)

Music & Lyrics: David Casanova & Jorge
Navas Alejo

It's the Call to Wrath!

Stop telling lies
Now rules are going to change

Why do our leaders
talk about peace and human rights...
... And later they don't doubt to sell weapons
to whoever pays them?

Why while we can have
enough food to be overweighted...

... Millions of people still die from starving
each year?

*Don't you think that this is so unfair?
We all should have the same rights
They've been fooling us for so much time?
Hate is now all what they deserve
Don't you realize this has to change?
There must a way to resolve it
Wrath is the only way to make them see
That we don't trust them anymore*

Now, nothing's sacred
And money is the only God
They're all worshipping to

Now, nothing's sacred
And life's a different cost
Depending where you birth

**Come, join our cause
And cry out loud:
We want more justice in this World**

**Don't make speeches
Don't talk to TV
It's time to sort things out right now!**

**Call us anarchs
Lefties or reds
Call us whatever - we don't care**

**Just think that now, whatever you do
We'll be watching you!**

Listen to me,
If they cause one more war
Then war is what they'll have

Now, nothing's sacred
And money is the only God
They're all worshipping to

Now, nothing's sacred
And life's a different cost
Depending where you birth!
